Dear Applicant:

Within 30 days from the date of this letter, file an amendment to resolve the deficiency that was discovered during the initial review of your application. Amendments must be filed electronically. Failure to amend your application will result in the dismissal of the application.

Specifically, the Overall Tower Height Above Ground Level of the proposed construction permit is 23.2 meters; however, the Antenna Registration Search results of ASRN number 1265075 shows the Overall Tower Height Above Ground Level as 18.2 meters which equals a proposed tower height increase of 5 meters which will require notification and new tower registration with the FAA.

Sincerely

Hossein Hashemzadeh  
Deputy Chief
