

**Request for Special Temporary Authorization**

Radio License Holding CBC, LLC (“RLH”), pursuant to Section 73.1635 of the FCC’s rules, hereby requests a special temporary authorization (“STA”) for radio station KHYT(FM), Tucson, Arizona (Facility ID 56053), for a period of 180 days.

Station KHYT is licensed to operate on Channel 298 with 82 kW effective radiated power at 620 meters height above average terrain. The station’s transmitter malfunctioned on or about July 8, 2016, and the Commission was notified that KHYT has been operating with reduced power since that time. Station KHYT is currently operating with approximately 75% of its licensed power and anticipates being able to return to full licensed power soon.

Nevertheless, RLH respectfully requests an STA for a period of 180 days pursuant to Section 73.1635 of the Commission’s rules to continue operating KHYT at reduced power. The requested STA will serve the public interest because it will enable the station to continue to serve the residents of Tucson and the surrounding area until RLH can return the station to full licensed power.
