Dear Sir or Madam:

This will confirm 1087 Beneva Tower Inc. is the owner of the communications tower WSLR-FM is broadcasting from. You may find all necessary information relating to that tower by clicking here <http://www.1087beneva.com/> .

The Tower's FCC Registration number is 1231476. The site is located at 27-19-27.48, 082-29-44.92.

This letter will certify that this tower is NOT insulated. This is a fully grounded tower. Radio Station WSRQ AM 1220 does broadcast under an FCC STA pending their relocation to a new site. WSRQ utilizes a "Slant Wire" feed system. WSRQ measured the tower following your construction and found no change whatsoever from the readings taken prior to construction. The Slant Wire system was implemented for the protection of the personnel installing the numerous co-located cellular facilities utilizing the tower. It is my understanding WSRQ will be moving to their permanent broadcasting site prior to the end of this year.

Should you have any additional questions regarding this issue please contact me at 772 913 2209 or at the above address.

Sincerely,

Ronald E Crider
President
1087 Beneva Tower Inc.
