**Subject:** WMBT-LP BSTA-20211007AAE is DENIED 10/12

To Come Together Productions, Inc, licensee of WMBT-LP:

Your request for Special Temporary Authority (STA) filed October 7, 2021, IS DENIED. No operation is authorized from this location.

There are two independent reasons for this action. First, we do not consider STA requests to move to a new permanent site, in advance of the grant of a construction permit. (Construction permit application 0000151239 – with rule waiver requests - is currently under review for this same site.) Second, the proposed STA 60 dBu service contour must remain wholly within the licensed 60 dBu service contour. This proposed operation fails both tests.

The licensee must await the outcome of the current construction permit application.
