

**MINOR CHANGE APPLICATION**  
**THRESHOLD COMMUNICATIONS**  
**K290BF FM TRANSLATOR STATION**  
**CH 287D - 105.3 MHZ - 0.008 KW**  
**MODESTO, CALIFORNIA**  
**July 2010**

**TECHNICAL STATEMENT**

This Technical Statement and attached exhibits were prepared on behalf of Threshold Communications ("TC"), proposed assignee of FM translator station K290BF, Channel 290D, Modesto, California.<sup>1</sup> TC herein proposes to make minor changes to the facility by changing from Channel 290D to Channel 287D. No other change is proposed. The proposed K290BF will be used as a fill-in translator for AM station KVIN, 920 kHz, Ceres, California. Exhibit A is a map depicting that the 60 dBu contour of the proposed translator is inside the 2.0 mV/m contour of KVIN. As the proposed translator site is the same as the licensed location, there is an overlap with the proposed K290BF 60 dBu contour and the licensed contour.

Since TC is proposing to locate the K290BF antenna system on an existing building/tower, the Federal Aviation Administration was not apprised of this proposal. The antenna supporting structure is registered with the Commission and has been assigned Antenna Structure Registration Number 1245129. Attached as Exhibit B is a study demonstrating that the proposed K290BF translator on Channel 287 will not cause interference to any full service station, nor will interference be delivered to or received from any existing FM translator station or LPFM facility.

---

1) TC is the proposed assignee of K290BF, as indicated in BALFT-20100625ADV. This instant application is being filed in TC's name, the proposed assignee, as a contingent application. The present licensee of K290BF has consented to this filing.

As the proposed translator will be co-located with an LPFM atop a building, attached as Exhibit C is a study which shows this proposal is in compliance with the Commission's RF exposure limits.

All other necessary documentation used to certify the technical portion of FCC Form 349 has been forwarded to TC and is available to the Commission upon request.<sup>2</sup>

---

2) The undersigned has evaluated only the radio frequency radiation exposure portion of the environmental review. All data regarding broadcast facilities was extracted from the CDBS database on the date of the interference study herein. We assume no liability for errors or omissions in that database which may be adverse to the request contained herein.
