

MINOR CHANGE APPLICATION
EMMIS AUSTIN RADIO BROADCASTING COMPANY, L.P.
KROX-FM RADIO STATION
CH 268C2 - 101.5 MHZ - 12.5 KW
BUDA, TEXAS
August 2009

TECHNICAL STATEMENT

This Technical Statement and attached exhibits were prepared on behalf of Emmis Austin Radio Broadcasting Company, L.P. ("Emmis"), licensee of FM radio station KROX-FM, Channel 268C2, Buda, Texas. Emmis herein proposes to make minor changes to the facilities of KROX-FM by relocating to another site and slightly increasing height above average terrain.

Emmis proposes to locate KROX-FM on an existing tower. As such, the Federal Aviation Administration was not notified of this proposal. The tower on which the antenna is to be installed has been registered and assigned Antenna Structure Registration Number 1063584. At the proposed site, Channel 268C2 does not meet the Commission's minimum distance separation requirements to one other station. Therefore, processing pursuant to §73.215 of the rules is requested (Exhibit A).

The proposed KROX-FM antenna is to be co-located with other facilities (FM and TV) and is also located near several other existing towers in the Austin, Texas tower farm. Therefore, the worksheets associated with FCC Form 301 could not be used to certify compliance with the Commission's radiofrequency exposure limits. Attached as Exhibit B is a study which shows the KROX-FM complies with the exposure limits.

All other data used to certify the information contained in this application has been forwarded to Emmis and is available for submission to the Commission upon request.¹

1) The undersigned has evaluated only the radio frequency radiation exposure portion of the environmental review. All data regarding broadcast facilities was extracted from the CDBS database. We assume no liability for errors or omissions in that database.
