

**MINOR CHANGE APPLICATION/  
CUMULUS LICENSING LLC  
WWIZ (FM) RADIO STATION  
CH 280A - 103.9 MHZ - 6.0 KW  
WEST MIDDLESEX, PENNSYLVANIA  
August 2013**

**TECHNICAL STATEMENT**

This Technical Statement and attached exhibits were prepared on behalf of Cumulus Licensing LLC ("Cumulus"), licensee of station WWIZ, Channel 280A. In BPH-20070119AAH, Cumulus changed the community of license from Mercer to West Middlesex, Pennsylvania. That permit expired on August 4, 2013. Since the assignment to West Middlesex, Pennsylvania was made in the previous permit, this application is not considered a one-step proposal, but rather a minor change. The facilities requested herein are the same as those authorized in BPH-20070111AAH.<sup>1</sup>

Cumulus is proposing to implement this change at its authorized tower site. As such, the Federal Aviation Administration was not apprised of this proposal. The tower is less than 200 feet; therefore, it does not require registration with the Commission.

As indicated on Exhibit A, the proposed facility in West Middlesex, Pennsylvania is mutually exclusive with the licensed WWIZ facility. Channel 280A, from a designated implementation/allocation site, meets the Commission's minimum distance separation requirements or does not increase the pre-existing shortages; and a city grade signal will be delivered over all of West Middlesex, Pennsylvania from the proposed site. All other necessary

---

1) It is noted that any change in the height above average terrain areas due to the terrain database in use and no actual change in facility is proposed.

documentation used to certify the technical portion of FCC Form 301 has been forwarded to Cumulus and is available to the Commission upon request.<sup>2</sup>

---

2) The undersigned has evaluated only the radio frequency radiation exposure portion of the environmental review. All other necessary reviews have been, or will be addressed by the applicant.
