Lake Charles, LA 70605

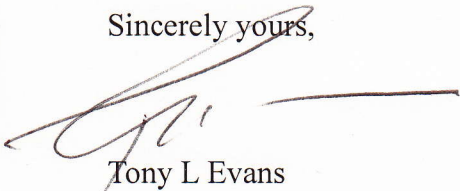

Dear Chad,

The KBYS installation was completed on May 15, 2014. The Shively, Labs antenna was constructed and installed according to the details outlined by Shively Labs.

A representative of a Land Surveying company Morrison Surveying Inc located in Sulphur, LA was employed to determine the orientation of the antenna. The antenna was set to heading of 81 degrees outlined by Shively Labs.

Tony L Evans is a consulting broadcast Engineer with 31 years in the Broadcast Engineering electronics field.

Sincerely yours,

Tony L Evans
