Bellefontaine, OH 43311

Re: W300BB (FX), Lima, OH
V-Teck Communications, Inc.
Facility Identification Number: 148364
Special Temporary Authority
BESTA-20140425ABX

Dear Mr. Vito:

This is in reference to your request filed April 25, 2014, on behalf of V-Teck Communications, Inc. ("V-Teck"). V-Teck requests an extension of the special temporary authority ("STA") granted November 20, 2013 to the former licensee of W300BB (Educational Media Foundation), to continue operating translator W300BB at a temporary site until construction permit BMPFT-20130812ABE (granted February 6, 2014) can be implemented.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

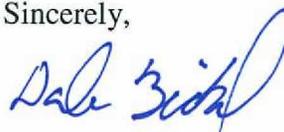

V-Teck indicates it is presently in the process of constructing the facilities authorized by the construction permit. Consequently, we find that an STA extension is warranted, and the extension IS GRANTED. W300BB may continue to operate with the following facilities:

Geographic coordinates: 40° 38' 03" N, 84° 12' 29" W (NAD 1927)
Channel 300D (107.9 MHz)
Effective radiated power: 0.060 kilowatt (H&V)
Antenna height:
 above ground: 8 meters
 above mean sea level: 271 meters
 above average terrain: 5 meters
Antenna Structure Registration No.: 1012273

V-Teck must use whatever means are necessary to protect workers and the public from radiofrequency exposure in excess of the Commission's exposure guidelines. See 47 CFR § 1.1310.

This authority expires on November 15, 2014.

Sincerely,

Dale Bickel,
Senior Engineer
Audio Division
