Re: Broadcast antenna orientation
Terry Mountain, Peru, New York
BPLS Project #NYPERU01

Dear Mr. McClary;

On November 11, 2004, we assisted with the orientation of the WAVX FM broadcast antenna on the tower at Terry Mountain in Peru, New York.

I attest that the orientation of this antenna is within one degree of 98° True North Azimuth, as instructed.

Very truly yours,

Vaughn C. Button, L.S.
