

**Amended Statement of Educational Purpose**

Calvary Chapel of Kingman is a non-stock, non-profit corporation which was chartered under the laws of the State of Arizona on November 23, 1984. As a nonprofit educational and religious corporate entity, it is tax-exempt pursuant to Section 501(C)(3) of the Internal Revenue Code.

The applicant attempts to educate people about the source of contemporary social problems, such as drug and alcohol abuse, crime, depression and suicide, the failure of marriages and the breakdown of the family. Our teaching efforts focus on how to keep problems such as these from arising, how to identify these problems when they do arise, and how to then successfully overcome them. We pursue these objectives by means of regular classes and study groups, as well as private counseling sessions to help individuals, couples or families who are confronting these types of problems in their daily life. In addressing these issues, we often feature teachers who have suffered and overcome similar problems, and who therefore, can use their personal experiences to guide and give hope to others. Spiritual and moral values are stressed through these activities.

Examples of these educational activities include:

Biblical Counseling Seminars, educating participants about how to identify and control different areas such as anger, bitterness, etc.

Children's development programs, teaching children values in the classroom and through their involvement in community activities and events.

Counseling in financial management and budgeting.

Pre-marital and marital counseling, family counseling. Guidance to shut-ins at the local retirement/nursing homes.

Visiting prisons to encourage and help them in rehabilitation.

Hospital visitation programs.

Men's meetings, emphasizing the importance of male role models in society and family.

Women's meetings, emphasizing the special needs in handling pressures of work and family.

The establishment of home study groups.

Gathering young people in groups to discuss issues of concern to them and for community service projects.

Drug and alcohol abuse counseling, to assist those in the community who seek to terminate their use of addictive substances.

Instruction in the Scriptures, teaching not only what they say, but also interpretations which enable individuals to apply those basic principles in their daily lives. Topics include, for example, dealing with a child's death, rightly relating with others, how to respond to betrayal by someone you have trusted, the nature of marriage, employment problems, the nature of leadership, how to handle unjust suffering, and teenage sex.

Our purpose and objective in establishing the proposed station is to expand our program by reaching out into the community through this additional means. We often are called upon to deal with problems after they have arisen. We hope that by going beyond face-to-face communication, we will be able to reach and teach people before a crisis erupts in their lives. The station will therefore be used to advance our objectives by presenting teachings and discussions dealing with these specific problems, together with teachers, music, and other programs designed to help people understand how to generally deal with themselves and others in the modern world. By means of the station, we will be able to expand the amount of material we present, while also reaching those who cannot attend and participate in our current activities during the times when and at the places where they are not available. We will be able to reach shut-ins, hospital patients, residents of convalescent homes or homes for the elderly, along with others who cannot personally attend our classes or visit our counselors due to time, weather, or other constraints. Community members will become more aware of our activities and will be able to benefit 24 hours a day regardless of their location – home, office or motor vehicle.
