Facility ID #9928
BPED-20070621AQF

Dear Applicant:

This letter is in reference to the above-captioned minor change application to modify effective radiated power, class, height, and location.

An engineering study of the application reveals that it is in violation of 47 C.F.R. § 73.509 with respect to the following stations: (1) co-channel Class C3 license (BLED-20000606ACF) for KNLN(FM), Vienna, MO, and (2) first-adjacent channel Class C2 construction permit (BPED-19960514MA) for a new FM station serving St. Joseph, MO. Specifically, with respect to KNLN, the proposed interfering contour (40 dBu) causes prohibited overlap to the protected contour (60 dBu) of KNLN by approximately 13 kilometers between the azimuths from 226°T to 16°T. In addition, with respect to the St. Joseph permit, the proposed interfering contour (54 dBu) causes prohibited overlap to the protected contour (60 dBu) of the St. Joseph permit by approximately 7 kilometers between the azimuths from 84°T to 177°T.

In light of the above, Application BPED-20070621AQF is unacceptable for filing pursuant to 47 C.F.R. § 73.3566(a) and IS HEREBY DISMISSED. This action is taken pursuant to 47 C.F.R. § 0.283.

Sincerely,

Rodolfo F. Bonacci
Assistant Chief
