

**MINOR CHANGE APPLICATION**  
**CENTRAL FLORIDA EDUCATIONAL FOUNDATION, INC.**  
**W245AZ FM TRANSLATOR STATION**  
**CH 245D - 96.9 MHZ - 0.027 KW**  
**LEESBURG, FLORIDA**  
**March 2006**

**TECHNICAL STATEMENT**

This technical statement was prepared on behalf of Central Florida Educational Foundation, Inc. ("CFEF"), licensee of FM translator station W245AZ, Channel 245D, Leesburg, Florida. CFEF seeks to make minor changes to the W245AZ translator by proposing to increase the height of the antenna system on the existing tower. No other changes are proposed. The W245AZ facility will continue to rebroadcast the signals of co-owned station WPOZ, Channel 202C2, Union Park, Florida.<sup>1</sup>

The proposed W245AZ antenna system will remain at its presently licensed site. As such, the Federal Aviation Administration was not apprised of this proposal. The tower on which the antenna will be located has been registered with the Commission and assigned Antenna Structure Registration Number 1002749. Attached, as Exhibit A, is a study demonstrating that the proposed W245AZ translator will not cause interference to any full service station, nor will interference be delivered to or received from any existing FM translator station or LPFM application. Using the worksheets associated with FCC Form 349, it has been determined that this proposal is in compliance with the Commission's radio frequency radiation guidelines.

---

1) Since the proposed (and present) 60 dBu contour of W245AZ is outside the 60 dBu contour of the licensed non-commercial WPOZ facility, this translator is not considered a fill-in.
