

## Exhibit 1– Proposed Modifications

This application for modification to Construction Permit BNPFT-2015030AAX(W234CK) is prepared on behalf of Word Power, Inc. Applicant is proposing a **minor change**, consisting of a correction to the Center of Radiation height. (Physical limitations on the tower structure required the mounting of the antenna to be 20 feet less than authorized.) No other technical changes, including transmitter site location, are proposed.

Word Power still intends to use this as a “Fill-In” Translator, using the signal of WKZI-AM as the primary signal. No change in the authorized ERP of 0.250 kw is proposed. Compliance with the appropriate rule at the proposed height and power is shown in Exhibit 10.

Attached in Exhibit 12 are Contour Spacing Study and a Map showing all required clearances.

All the statements, maps and data contained in the following pages are true and correct the best of my knowledge and belief and were prepared by me or under my supervision. Unless otherwise noted, all data and maps are from *rFinvestigator V.3.524 by rFsoftware, Inc.* All maps utilize USGS rasterized data and terrain data is base on the USGS 3-second DEM(DMA) terrain database, ver. 2012. Scale is as described on each map and all co-ordinates are NAD 27 datum unless otherwise noted.

Signed,
