In re: Low Power Television Application of:  
Bruno Goodworth Network, Inc.  
Channel 40, Charleroi, PA.  
File no.: BMPDTA-20130215AAT  
Facility Id No.: 68394

Dear Applicant:

Within 30 days from the date of this letter, file an amendment to resolve the deficiency that was discovered during the initial review of your application. Amendments must be filed electronically. Failure to amend your application will result in the dismissal of the application.

Specifically, the proposal is predicted to cause interference to the following facilities:

1. KDKA-TV, Johnstown, PA. – BDRTCDT-20090630ADW at 27%

The interference to the above referenced Full Service Stations digital replacement translator at the time your existing digital displacement application (BDISDTA-20090713ADO) was granted was 13.7%. Your proposed digital modification BMPDTA-20130215AAT shows an interference increase of 13.3% which exceeds the allowable 2.0% for Low Power Stations. Plus the low power digital replacement translator proposals have the same priority as displacement applications.

Sincerely

Hossein Hashemzadeh  
Deputy Chief  
Video Division  
Media Bureau
