

**RESPONSE TO SECTION I, QUESTION 6**

Ellis Communications KDOC Licensee, LLC ("Ellis") herein amends its pending application (Call Sign KDOC-DT; File No. BLCDT-20060626ACV) for a license to cover a digital television station construction permit. This amendment updates the file number of the construction permit that Ellis seeks to cover with a license.

In the initial submission, which was filed by Ellis's predecessor before the KDOC-DT construction permit and associated analog television license were assigned to Ellis pursuant to FCC consent, the response to Question 6 identified the file number associated with the original construction permit for KDOC-TV (BPCDT-19981028KE). That construction permit, however, has been modified a number of times, and Ellis requests that the most recent construction permit file number, BMPCDT-20040323ATA, be substituted for the earlier one in the response to Question 6.

Apart from the change in file number, Ellis is not making any technical or other changes to its application.
