Re: WQKI-FM, Orangeburg, South Carolina
Community Radio Broadcasters, LLC
Facility Identification Number: 6484
Special Temporary Authority
BESTA-20160525AAN

Dear Licensee:

This is in reference to the request filed May 25, 2016, on behalf of Community Radio Broadcasters, LLC ("Community"). Community requests a twelfth extension of the special temporary authority ("STA") granted on August 28, 2009, to operate Station WQKI-FM with temporary facilities.¹ Construction permit BPH-20150420ABG was granted May 27, 2015 but has not yet been implemented.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Our review indicates that the licensee continues to work toward implementation of a permanent facility. Thus, extension of STA is warranted.

¹ WQKI-FM is licensed for operation on Channel 275A (102.9 MHz) with effective radiated power ("ERP") of 3.1 kW (H&V) and antenna height above average terrain ("HAAT") of 139 meters.

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station WQKI-FM may continue to operate with the following facilities:

Geographic coordinates:	33° 26' 35" N, 80° 48' 16" W (NAD 1927)
Channel	275 (102.9 MHz)
Effective radiated power:	3.7 kilowatts (H&V)
Antenna height:	
above average terrain:	124 meters
above mean sea level:	177 meters
above ground:	122 meters

Community must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **November 29, 2016**.

Sincerely,

Dale Bickel
Senior Engineer
