

Affidavit Certification and Qualifications of Supervising Engineer
in support of FCC Form 302 WLRS FM, Shepherdsville Kentucky
FCC File Number BMPH-20070911AAN

The proposed facility referenced in the above construction permit has been constructed as permitted. I have overseen all aspects of WLRS site and directional antenna assembly and installation. I certify that the station has been built as permitted. The Shively antenna was installed exactly as specified by the manufacturer and the antenna orientation as specified in the construction permit. It has been measured and verified by a Licensed Professional Surveyor in the State of Kentucky. The Surveyor's certification is attached as an exhibit.

I certify that I am a Broadcast Engineer and am familiar with all relevant FCC regulations that pertain to this project. I have an Associate degree in Electronic Technology, with continuing education in the field of Electrical Engineering, and have held a valid FCC Radiotelephone First Class or General Class license since 1979. I have worked continuously in the field of AM, FM, and Television for the last 29 years. I have installed and supervised numerous facilities, including directional FM transmission systems in that time. I certify that to the best of my knowledge, all statements are true, comply with all pertinent FCC rules and Regulations, and follow good engineering practices.

Donald E. Backherms Jr.
Chief Engineer WLRS
