

January 12, 2012

Mr. Michael D. Brown  
Brown Broadcast Services, Inc.  
3740 SW Comus Street  
Portland, OR. 97219

**Certification of Antenna Orientation (Kathrein-Scala Model CA5-FM/CP/RM)**

Dear Mr. Brown,

HUNT Engineers, Architects & Land Surveyors, P.C. has completed the necessary survey field work and calculations to certify the antenna orientation as requested by Ithaca Community Radio WINO on behalf of Dave Frost, WSKG.

HUNT surveyors were on site January 11, 2012 to verify the azimuth orientation during installation of an **Antenna referenced as Kathrein-Scala Model CA5-FM/CP/RM (Construction Permit Number BNPED-20071018AFY).**

A Geodetic Azimuth Baseline was established at a project site located in the Town of Montour Falls (Odessa), Schuyler County, NY. Trimble R8 Model 3 units were utilized for this specific assignment. From this baseline a true bearing was established to determine the azimuth of the FM YAGI ANTENNA to be 265 degrees from true north (+/- 30 minutes)

Should you have any questions, please contact our office.

Cordially,

HUNT ENGINEERS, ARCHITECTS & LAND SURVEYORS, P.C.

A handwritten signature in green ink that reads "Gary L. Thompson". The signature is fluid and includes a large loop at the end.

Gary L Thompson, PLS, Principal
