

## **EXHIBIT 7**

This facility was constructed on a tower at coordinates 32-35-20.9 Latitude by 96-58-12.9 Longitude. The tower on which the facility was constructed bears FCC registration number 1055009. This site is approximately 700 feet from the location specified in the facility's construction permit.

The construction permit specifies a tower bearing FCC Registration number 1045531 at coordinates 32-35-19 Latitude by 96-58-05. The facility was constructed on this immediately adjacent tower because space and load constraints at the original site prohibited construction at that site.

In all other regards the station is constructed according to specifications contained in the facility's construction permit.
