

APPLICATION FOR STATION LICENSE
CUMULUS LICENSING LLC
KGEE (FM) RADIO STATION
CH 247A - 97.3 MHZ - 0.30 KW
PECOS, TEXAS
March 2008

TECHNICAL STATEMENT

This Technical Statement was prepared on behalf of Cumulus Licensing LLC ("Cumulus"), licensee of KGEE, Channel 247C1, Pecos, Texas. Cumulus also holds an outstanding construction permit to relocate and downgrade KGEE (BPH-20071113AIT). This instant application seeks a license to cover the outstanding permit. A calculation of the transmitter power output of the KGEE transmitter is attached as Exhibit A.

There are three special operating conditions or restrictions on the permit. The first notes a change to the FM assignment for KGEE from Channel 247C1 at Pecos, Texas to Channel 247A at Pecos, Texas. Cumulus acknowledges this condition. The second condition notes that the grant of the KGEE permit was based on the grandfathering provisions of Note 4 to §73.3555 (2003). Cumulus also acknowledges this condition.

The third and final condition states that Cumulus will reduce the power of KGEE or cease operation, as needed, to insure that persons with access to the tower will not be exposed to radio frequency radiation levels in excess of the Commission's guidelines. Cumulus will comply with this requirement. Based on the foregoing, it is believed that KGEE is operating in compliance with the Commission's rules.
