**TECHNICAL STATEMENT**

This Technical Statement was prepared on behalf of Radio License Holding CBC, LLC ("Radio License Holding"), licensee of radio station WXTL, Channel 290A, Syracuse, New York. Radio License Holding is herein submitting an application to modify the license of WXTL (BLH-19971007KC) to reflect an increase of transmitter power required to accommodate the installation of a band-pass filter on the output of the WXTL transmitter. The installation of a band-pass filter was requested by the site owner. Exhibit A is a calculation of the WXTL transmitter power output.

Based on the foregoing, it is believed that the increase of the transmitter power is justified; therefore, a new WXTL license that reflects this change is requested.
