KVST F.M. Huntsville, Tx.

ENGINEERING STATEMENT – PER CP CONDITION No. 4

This letter is to certify that the KVST directional antenna system as authorized by construction permit for Huntsville, Tx. Channel /Class: 259C3 was installed under my direct supervision by qualified tower riggers and was installed per the instructions provided by the antenna manufacturer E.R.I. To the best of my knowledge the antenna is designed and installed in full compliance with the terms of the Construction Permit. I personally observed the assembly and installation of the antenna on August, 17, 2017. I have over thirty six years of experience in the field of broadcast engineering since 1982, including having worked for many major market broadcasters in the Houston area and around the U.S.A. doing maintenance and construction of numerous broadcast FM and AM antenna systems.

Certified by Signature,

A handwritten signature in cursive script that reads 'Dade Moore'.
