TECHNICAL STATEMENT

This Technical Statement was prepared on behalf of Oklahoma Community Television, LLC ("OCT"), permittee of digital low power/companion television translator K49KK-D, Channel 49, Elk City, Oklahoma. OCT holds an outstanding permit for K49KK-D (BMPD TT-20091221ADF), authorizing a reduction in power and a change in the antenna system to be used. This instant application seeks a license to cover the outstanding permit for K49KK-D. Attached as Exhibit A is a calculation of the transmitter output power for the K49KK-D transmitter.

There are no special operating conditions or restriction on the K49KK-D construction permit. However, OCT will, in cooperation with other tower users, reduce the power of K49KK-D or cease operation, as necessary, to insure that persons having access to the tower will not be exposed to radio frequency electromagnetic fields in excess of the FCC's guidelines. Based on the foregoing, it is believed K49KK-D is operating pursuant to the Commission's rules.
