

**W297AQ**  
**Minor Amendment Pending Application**  
**BMPFT20061020ABW**

This proposal is for a change of antenna and transmitter location to the following  
coordinates:                      42-07-10 N      80-04-48 W.

Site above means of sea level is 700 feet (213 meters) antenna center of radiation above ground level is 86 feet (26.2 meters). This proposed site is located 1.4 km southwest of the original proposed site used in BMPFT 20061020ABW. The F.C.C. sent W297AQ original application for a minor modification file # BMPFT20061020ABW for Canadian concurrence on 10/31/2006 which is still pending as of today. Once the F.C.C. gets the approval from the Canadian Government, you will see this new proposal for the new site which falls within the interfering contours of original proposal. See 34 dbu contour map, the original 34dbu is the green outer contour and the new proposed is red 34dbu inner contour.

We are requesting the F.C.C. expedite this application based on the above minor amendment.
