Re: KVBA-LP, Fac. Id. No. 70350
File No. BRTTA-20140516AAC

Dear Licensee:

This is in regard to the pending license renewal application of the above-captioned station. You filed a license renewal application for a Class A television station when in fact KVBA-LP is a low power television station.

As noted in the station's amended 2006 license renewal application, KVBA-LP was granted a displacement licensee on September 4, 2007 that converted the station from Class A status to low power status.[1] Indeed, the Licensee requested that the Video Division waive a multitude of public file violations during that license term as a result of the conversion.

Accordingly, the Licensee should withdraw its Class A license renewal application and file the appropriate low power television renewal.

Sincerely,

Barbara A. Kreisman
Chief, Video Division
Media Bureau
