

Certification by Qualified Engineer

October 23, 2012

Alan R. Lane, Engineering Manager of CBS Radio Holdings, Inc., Charlotte, North Carolina, hereby certifies the replacement antenna for WPEG (FM), Concord, North Carolina, was installed according to the manufacturer's instructions and in compliance with all applicable FCC Rules.

Mr. Lane was present and observed all assembly and erection of the antenna and transmission line. He was present for the initial tuning and low level electrical tests of the system performance. Mr. Lane also observed the survey work by Mr. Daniel Stone of Van Horn, Hoover & Associates.

Mr. Lane has been a radio broadcast engineer for 39 years and is presently an active member in good standing of the Society of Broadcast Engineers and has achieved the Certified Senior Broadcast Engineer, AM Directional Specialist, and Digital Radio Broadcast Specialist certifications.

I hereby attest the above statements are true this 23rd day of October, 2012.

A handwritten signature in black ink, appearing to read 'Alan R. Lane', is written over a horizontal line.
