Exhibit 1 Changes to Pending Application

3/6/2007

Refuge Media Group is submitting this instant application to change the transmitting antenna from a Telewave TFLBDI-1 to an Armstrong FMA-707. This also changes the polarity from Vertical only to equal powers in both Vertical and Horizontal polarizations. We are also reducing the specified ERP to 0.007 kW. Application Questions effected are as follows:

Section III-A # 8 "Height of Radiation Center Above Ground Level" changes from n/a for H-pol to 46 meters.
Section III-A # 9 "Effective Radiated Power" changes to 0.007 kW for both H & V Polarizations.
Section III-A # 10 "Transmitting antenna" changes to an Armstrong FMA-707 single element.

Also in this amendment are explanations in **Exhibit 11** concerning the station being rebroadcast and **Exhibit 16** concerning RF exposure.
