

## ENGINEERING STATEMENT

This exhibit was prepared on behalf of Channel Eleven, Inc., licensee of WETV-LP, Facility ID #10324, Murfreesboro, TN, in support of an application for a new digital LPTV station on channel 11.

An interference analysis indicates that the following stations/applications have overlapping protected/interfering contours with the WETV application, and would receive interference from the applicant:

WLLP-C	(10N)	Lawrenceburg, TN	BLTVL19891205ID
WSMV-D	(10)	Nashville, TN	BLCDT20021089AAV
W11BD	(11Z)	Lebanon, TN	BLTVL19870219IA
W11BD.C	(11Z)	Lebanon, TN	BPTVL20010326ACD
WLJT	(11+)	Lexington, TN	BLET203
WRMX-L	(12-)	Nashville, TN	BLTVL19950328IB

A Longley/Rice study, per OET 69 , of each of these stations was made to determine the extent of the interference. The results are as follows:

WLLP-C	(10N)	None
WSMV-D	(10)	None
W11BD	(11Z)	None
W11BD.C	(11Z)	0.000 %
WLJT	(11+)	None
WRMX-L	(12-)	None

Based on these studies, we request waiver of the appropriate portions of FCC 74.706 and 74.707.
