Re: WP Broadcasting, LLC  
KNMZ(FM), Alamogordo, New Mexico  
Facility Identification Number: 14030  
Special Temporary Authority

Dear Counsel:

This is in reference to the request filed September 8, 2011, on behalf of WP Broadcasting, LLC ("WPB"). WPB requests extension of the special temporary authority ("STA") granted on March 7, 2011, to operate Station KNMZ with temporary facilities.<sup>1</sup> In support of the request, WPB states that it has obtained Construction Permit BPH-20110408ADC, to relocate the station, and that construction of the newly authorized facilities is almost complete.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Our review indicates that the licensee has made substantial progress toward restoring licensed operation. Thus, extension of STA is warranted.

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station KRSY-FM may continue to operate with the following facilities:

---

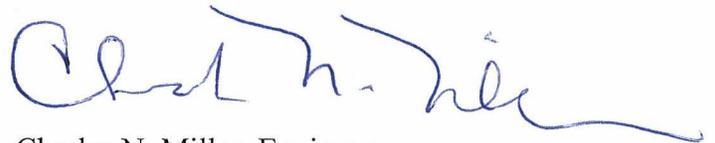

<sup>1</sup> KNMZ is licensed for operation on Channel 279A (103.7 MHz) with effective radiated power of 6 kilowatts (H&V) and antenna height above average terrain of -12 meters.

Geographic coordinates: 32° 53' 33" N, 105° 56' 42" W (NAD 1927)  
Channel 279 (103.7 MHz)  
Effective radiated power: 0.706 kilowatt (H&V)  
Antenna height:  
    above ground: 42 meters  
    above mean sea level: 1372 meters  
    Above average terrain: -171 meters

WPB must notify the Commission when licensed operation is restored. WPB must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **May 18, 2012**.

Sincerely,

A handwritten signature in blue ink, appearing to read "Charles N. Miller". The signature is fluid and cursive, with a long horizontal stroke at the end.

Charles N. Miller, Engineer
