WASHINGTON, D.C.

This engineering statement has been prepared on behalf of WBNS TV, Inc., permittee of WBNS-DT, Columbus, Ohio, and accompanies the amendment to license. The purpose of this engineering statement is to amend the license for the DTV facility specified in BLCDT-20021025ABK. The transmitter power output and transmission line power loss are revised. The revised transmitter power output is 58.34 KW, or 17.66 dB. The revised transmission line loss is 1.37 dB. The electronic filed material is attached as Appendix A.

The accompanying FCC Form 302 provides the technical information requested. There are no other changes from that proposed and authorized.
