

EXHIBIT NO. 7

APPLICATION FOR LICENSE
ENTRAVISION HOLDINGS, LLC
RADIO STATION KMXX
FACILITY ID 6665
IMPERIAL, CALIFORNIA
CH 257A 6.0 KW 92 M

This exhibit has been prepared on behalf of Entravision Holdings, LLC; licensee of FM broadcast station KMXX Imperial, California. Station KMXX was authorized a change in facilities, File No. BPH-19991025ACE. This exhibit supports an application for license.

Transmitting Facility

The KMXX transmitting antenna is side-mounted on a tower having an overall height of 114 meters above ground level. The tower bears registration number 1015656. The aeronautical marking of the structure has been changed in accordance with the requirements of Imperial County, California. In lieu of paint daytime and red light nighttime, medium intensity strobes have been installed for daytime use and red lights for nighttime use. The FAA will

Imperial, California

be notified and the tower registration will be changed to reflect the "as built" aeronautical markings.

The ERI type SHPX-8AC-HW-SP, eight bay antenna with one-half wavelength spacing between bays, is side mounted near the top of the tower, with center of radiation 106 meters above ground level. The antenna gain at 99.3 MHz is 2.598. The transmission line employed is MYAT 3-1/8-inch rigid line having loss of 0.0926 db per 100 feet. The power transfer efficiency of the transmission line is 91.8 percent. Employing the above information, the transmitter output power needed to achieve a maximum effective radiated power of 6.0 kilowatts is 2.52 kilowatts.

Upon grant of a pending application, co-owned station KSEH Brawley, California, which operates on 94.5 MHz, will also utilize the KMXX antenna system.

Protection from RF Exposure

The licensee is aware of the obligation to reduce power or cease operation as necessary to protect persons having access to the site, tower or antenna, from radiofrequency electromagnetic fields in excess of FCC guidelines.
