WKFL Minor Change Application

2/13/06

Engineering Statement

WKFL Minor Change Application

WKFL is presently a 1KW Daytime only station. Facilities are proposed to increase the daytime only coverage to 10kw daytime.

WKFL by it's application desires to increase power of it present facility to 10KW by use of a directional antennae array as applied for.

Community Coverage 73.24(i)

The proposed facility will comply with 73.24(i) of the Commissions rules concerning coverage of the City of License. The daytime coverage will provide 5.0 mv/m over the entire city of license.

Population Within the 1 V/m Contour 73.24(g)

No persons live or reside within the 1.0 V/m contour of the proposed facility.

Interference Study Exhibit 14

The proposed facility is a daytime only upgrade to an existing facility. The proposed facility meets interference requirements set forth in 73.182 of the commission's rules with the exception of the following.

BNP20040126AKE Curlew, Fl. Application

This application was part of category II MX action for Auction 84. This required submission of a 307b filing does not appear to be tendered. It must be assumed this application will be dismissed and therefore no interference issues would be present for this request.

Exhibit 14 includes a plot of the proposed facility as well as first, second and third adjacent facilities and protections afforded.

Environmental Protection Act Exhibit 18

The proposed facility will meet or exceed compliance with FCC established guidelines regarding exposure to RF electromagnetic fields as described in OET Bulletin 65.

Additionally, the proposed facility is an upgrade of an existing facility. Further, the proposed facility is not located in areas requiring an Environmental Assessment.
