Section 73.3555(a)(1)(i) of the Commission’s rules provides that in a radio market with 45 or more full-power, commercial and noncommercial radio stations, a single entity may not have a cognizable interest in more than eight commercial radio stations in total and not more than five commercial stations in the same service (AM or FM).

As shown on the BIA Kelsey Media Access Pro FCC Geographic Market Definition Report attached hereto, there are more than 45 full-power commercial and noncommercial radio stations in the Market. Therefore, common ownership of eight radio stations, no more than five in the same service, is permitted in the Market.

Following Beasley’s acquisition of Station WXTU, Beasley will have an attributable interest in eight commercial radio stations in the Market (three AM stations and five FM stations), which is permitted under the local radio ownership rule.
