**STATUS REPORT FOR CONTINUED TOLLING OF CONSTRUCTION PERMIT AND
REQUEST FOR TOLLING ON ASSOCIATED FILL-IN TRANSLATOR**

Pursuant to 47 C.F.R. § 73.3584 of the rules and regulations, permittee hereby submits this Status Update for tolling of construction permit of the above-referenced application for WDTP (FM) on channel 211B at Huron Township, MI. This status report is required at least every six months. The trial date was canceled for unknown reasons by the judge and new date has not yet been set; therefore this matter is in a pending state.

We respectfully request continuation of the tolling for another six months.

In addition we respectfully request tolling for FM translator W248CC, because it is a fill-in of primary station WDTP(FM), mentioned above. Program tests can not begin on the FM translator until WDTP(FM) begins program tests, which is currently tolled. We also request the tolling of the stations be tied together going forward with required status updates.

Respectfully Submitted,

Ed Czelada
