Re: Emmis Radio License, LLC (ERL)
WFNI(AM), Indianapolis, IN
Fac. ID No.: 19521
Special Temporary Authority (STA)
BESTA-20230112AAB

Dear Mr. Enright:

This is in reference to the request filed on January 12, 2023. ERL requests an extension of the STA granted on July 22, 2022, to continue operating from an alternate site location to allow time to file the required FCC Form 301 application (due to the sale of the licensed site and removal of the towers).¹ In support of the request, ERL stated that additional time is needed to arrange the sale of the station to a new licensee and file the application to propose a new permanent facility.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of STA is **HEREBY GRANTED**, and ELR may continue to operate with the following facilities:

¹ WFNI(AM) is licensed for DA operation on 1070 kHz with 50 kW day and 10 kW night using different patterns.

Geographic coordinates	39° 46' 04" N, 86° 09' 32" W (NAD 1927)
Frequency	1070 kHz
Hours of operation	day and night
Operating power	0.2 kW (day and night)
Antenna	Information Systems HPPR.0990, mounted on rooftop of studio building
Theoretical RMS	109.51 mV/m/@ 1 km

ELR must reduce power or cease operation if complaints of interference are received, and use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR §1.1310.

This authority expires on **July 17, 2023**.

Sincerely,
