

APPLICATION FOR STATION LICENSE
BROADSOUTH COMMUNICATIONS, INC.
WDXX (FM) RADIO STATION
CH 261C2 - 100.1 MHZ - 41.0 KW
SELMA, ALABAMA
July 2012

TECHNICAL STATEMENT

This Technical Statement was prepared on behalf of Broadsouth Communications, Inc. ("BCI"), licensee of radio station WDXX, Channel 261C2, Selma, Alabama. BCI holds an outstanding permit which authorizes minor changes for WDXX (BMPH-20120723ADI). BCI herein submits a license application to cover the outstanding permit. A calculation of the transmitter power output of the WDXX transmitter is attached as Exhibit A.

There are two conditions/restrictions on the WDXX permit. The first condition states BCI will reduce the power of WDXX, or cease operation in coordination with other users of the tower, to protect persons having access to the site from radio frequency electromagnetic fields in excess of FCC guidelines. BCI will comply with this condition.

The second condition states that the WDXX construction permit was authorized pursuant to §73.215. BCI acknowledges this condition. Based on the foregoing, it is believed that WDXX is operating in compliance with the Commission's rules.
