Los Angeles, California 90064

**EXECUTED**

Re: Station KSGA-LP  
San Bernardino, California  
FIN: 53242

Dear Mr. Wilkinson:

This is written on behalf of KVMD Licensee Co., L.L.C. ("KVMD"), the licensee of Stations KVMD, Twentynine Palms, California (the "Station").

You have advised KVMD that KJLA, LLC ("KJLA"), the licensee of Low Power Television Station KSGA-LP, Channel 64, San Bernardino, California ("KSGA"), is planning to file a request for an STA to modify the output channel for KSGA to Channel 23.

In connection with the request that KJLA intends to file, KVMD was made aware by you that the operation of KSGA, on Channel 23, may cause interference to the proposed operations of the Station, both under its current authorization and its distributed transmission proposal, in File No. BPCDT-120100325ACD, in excess of the threshold permitted by the rules and regulations of the Federal Communications Commission ("FCC"). KVMD has reviewed this matter with its engineering consultant and is aware of the locations where it will occur and the level of interference that the Station may be expected to receive.

After due consideration, KVMD wishes to confirm that it has no objection to the request KJLA has submitted to the FCC for modification of KSGA's output channel.

KJLA is authorized to submit this letter to the FCC in support of the STA request that it proposes to submit.
