RE: KCIB-LP Displacement Application Tower Registration

Thursday, October 07, 2010

Sirs;

Immanuel Baptist Church, licensee of KCIB-LP, is requesting a displacement application for their digital migration. KCIB-LP is currently on air, and in good standing with the commission's rules and regulations.

KCIB-LP's Tower is a pre constructed tower existing before the application for digital. The over all tower height above ground is 48m which preclude it form requirements of registration.

Respectfully,

Joseph Holland  
Consulting Engineer
