TECHNICAL STATEMENT

This Technical Statement was prepared on behalf of Central Florida Educational Foundation, Inc. ("CFEF"), licensee of FM translator station W274BB, Channel 274D, Haines City, Florida. CFEF holds an outstanding permit which authorizes minor changes to W274BB (BPFT-20090611ACK). This instant application seeks a license to cover the outstanding permit. A calculation of the transmitter power output for the facility is attached as Exhibit A.

There are two special operating conditions or restrictions listed on the permit. The first condition states that CFEF will, in cooperation with other tower users, reduce the power of W274BB or cease operation, as necessary, to insure that persons having access to the tower will not be exposed to radio frequency electromagnetic fields in excess of the FCC's guidelines. CFEF will comply with this condition. The second condition states that prior to commencing operation with the authorized facility, an application for license, FCC Form 350, is to be submitted. This instant application complies with this condition.

Based on the foregoing, it is believed that W274BB is operating in compliance with the Commissions rules and that all conditions have been met.
