

TECHNICAL STATEMENT
RADIO MULTIPLE OWNERSHIP ANALYSIS
CLEAR CHANNEL BROADCASTING LICENSES, INC.

This statement and the attached figures were prepared on behalf of Clear Channel Broadcasting Licenses, Inc. ("CCBL"), a licensee subsidiary of Clear Channel Communications, Inc. ("CCC"). CCBL proposes to modify the facilities of KTST(FM), Oklahoma City, OK. A multiple ownership analysis was prepared considering the following radio stations under present or proposed common ownership, time brokerage or joint sales.¹

Table 1: Proposed Commonly Owned, Brokered or Jointly-Sold Stations Studied and Associated Arbitron Metro² Information

Calls	Fac ID	Band	Community	County	State	Geographic Arbitron Market	Declared Arbitron Market
KTUV	21555	AM	Midwest City	Oklahoma	OK	Oklahoma City, OK	Oklahoma City, OK
KTOK	11925	AM	Oklahoma City	Oklahoma	OK	Oklahoma City, OK	Oklahoma City, OK
KHBZ-FM	11964	FM	Oklahoma City	Oklahoma	OK	Oklahoma City, OK	Oklahoma City, OK
KJYO	11918	FM	Oklahoma City	Oklahoma	OK	Oklahoma City, OK	Oklahoma City, OK
KTST	58390	FM	Oklahoma City	Oklahoma	OK	Oklahoma City, OK	Oklahoma City, OK
KXXY-FM	58389	FM	Oklahoma City	Oklahoma	OK	Oklahoma City, OK	Oklahoma City, OK
KGYN ³	65152	AM	Oklahoma City	Oklahoma	OK	Oklahoma City, OK	Oklahoma City, OK

Since certain of these stations have overlapping principal community contours (5 mV/m for AM stations, 3.16 mV/m for FM stations), or are located in, or home to, the same Arbitron Metro Markets, an ownership study has been prepared in accordance with the Federal Communications Commission's local radio ownership rule.⁴

CCC does not have an attributable interest in any other station with a principal community contour that overlaps or intersects the principal community contour of KTST(FM) as proposed, or which is located in the same Arbitron Metro⁵ as KTST(FM). The community of license of KTST(FM) is located within the Oklahoma City, OK Arbitron Metro, and KTST(FM) is reported by BIA

¹ Other than KGYN(AM), Guymon, Ohio, none of the following stations are attributable by virtue of a time brokerage agreement or joint sales agreement.

² Arbitron data presented herein is obtained from BIA's "Media Access Pro."

³ An application by Telns Broadcasting Company, Inc., the licensee of KGYN(AM), Guymon, Ohio, is pending to relocate KGYN(AM) from Guymon, Ohio, to Oklahoma City, Oklahoma, see FCC File No. BMJP-20020426AAJ. A subsidiary of CCC is presently time-brokering KGYN(AM); data on KGYN(AM) is presented to account for the end effect of its pending relocation application.

⁴ See 47 C.F.R. § 73.3555(a).

⁵ A station is considered to be "located in an Arbitron Metro" if the station's community of license is located within the boundaries of that Metro, or, the station is listed as "Home" to that Metro by BIA.

as being "Home" to that Metro only. Contour overlap of the station to be modified, as depicted in Figure 1, also occurs with commonly-owned stations whose communities of license are located in the Oklahoma City, OK Arbitron Metro markets.

Arbitron Market Study

KTST(FM) is reported by BIA as being "Home" to the Oklahoma City, OK Arbitron Metro. This proposal is in compliance with the local radio ownership rules for that Arbitron Metro, as evidenced by Table 2 below:

Table 2 - Stations Considered to be in the
Oklahoma City, OK Arbitron Metro⁶

Count	Calls	Fac ID	Band	Owner	Status ⁷	Community	County

38	KROU	69175	FM	University of Oklahoma	b	Spencer	Oklahoma

Interim Contour-Overlap Analysis

Because the principal community of the station to be modified, and the communities of all commonly-owned or attributable stations with overlapping principal community contours with the station to be modified, are located inside an Arbitron Metro, an interim contour-overlap analysis is not required.

Conclusions

In the Arbitron Radio Market studied herein, there are at least 38 radio stations, including the subject attributable 3-AM / 4-FM stations, which are home to the Oklahoma City, OK Metro. This proposal does not affect the existing number of commonly-owned stations in the subject BIA Metro.

Based on the above, it is concluded that the proposed modification complies with Section 73.3555(a) of the FCC Rules.

Respectfully submitted,

Troy G. Langham
FCC Engineering Supervisor
October 19, 2004
