Mr. James Travis, Chief Engineer  
Family Life Ministries Radio, Inc.  
P.O. Box 506  
Bath, NY 14810

Dear Mr. Travis:

We are aware of the single-bay FM transmitting antenna for FM Translator station W222AH, Cortland, NY mounted on an existing 46-meter tower, which is 1.51 km at 229° T from our station WKRT, Cortland, NY.

WKRT employs a two-tower directional array during nighttime hours and has four monitor points, specifically at 72.5° T, 90° T, 156° T, and 225.5° T. None of the four monitor points have exceeded licensed limits since the translator antenna was mounted on the pre-existing tower. Hence a partial proof of the WKRT nighttime array does not appear warranted from the construction of W222AH.

Please contact my office if there are any questions.

Sincerely,

Dave Edwards  
Chief Engineer  
WKRT, Cortland
