

Rochester Free Radio, Inc.
Application for New LPFM Station
Facility ID 192286 -- Channel 292 -- Rochester, NY
Exhibit 12A – Listing of FM Translators Within 30 km

The following table lists all known authorized FM translators (and applications) within a 30 kilometer radius of the proposed LPFM site, which approximates the proposed 34 dBu interference contour radius.

Please note that none of these translators receive an input signal on channels within the range 289 to 295. Therefore, the proposed Channel 292 facility is not expected to have any harmful impact on the operation of these facilities.

Translator Call Sign	Rebroadcasts	Input FM Channel
