Gentlemen:

On behalf of our client, the Archdioceses of San Juan, licensee of TV station WORO-DT, Fajardo, Puerto Rico, in accordance with Section 73.1030 of the FCC Rules, we are hereby notifying you of a proposed antenna height correction; no actual change in the facilities of WORO-DT is proposed. The particulars of the proposal are as follows:

Proposed Facility

Geographical coordinates of antenna location (NAD83): 18-18-28.8 / 65-47-39.6 (no change)  
Antenna height: 63 m AGL; 1068 m AMSL (7-meter increase)  
Antenna directivity: 12.15 dBi (no change)  
Antenna orientation: 330° true (no change)  
Proposed channel: 13 (210-216 MHz) – no change  
Type of emission: 6M00D7W (no change)  
Effective isotropic radiated power: 62.3 kW (Maximum, Circular polarization) – no change

Should you find any adverse effect from this proposal, please communicate via email (<mailto:Grafton@dlr.com>), fax (941-329-6031) or regular mail, so appropriate action can be taken.

Very truly yours,

Grafton Olivera, P.E.
