

Exhibit 16

FM Translator Environmental Statement - The instant application proposes an FM translator antenna located on an existing communications site structure approved for the specific use of radio communications or an "antenna farm" and proposes no significant alteration of any environmental features. Furthermore, 47 CFR Section 1.1307(b)(4)(i) states, ***"With respect to subpart L of part 74 of this chapter, these requirements apply only to FM booster and translator stations transmitting with an effective radiated power (ERP) in excess of 100 watts."*** Since this application proposes less than 100 watts ERP, this application is categorically exempt from environmental processing with respect to RF Radiation and other environmental issues.
