

NEW STATION APPLICATION  
RADIO TRAINING NETWORK, INC.  
CH 205C2 – 88.9 MHZ - 45.0 KW (DA)  
CLAXTON GEORGIA  
OCTOBER 2007

TECHNICAL STATEMENT

This Technical Statement and attached exhibits were prepared on behalf of Radio Training Network, Inc. ("RTN"). RTN herein submits an application seeking to construct a new NCE FM Broadcast Station.

RTN is proposing to locate the proposed facility on an existing tower. As such, the Federal Aviation Administration has not been apprised of this proposal. The tower on which the antenna is to be located has been registered with the Commission and assigned Antenna Structure Registration Number 1215193. All exhibits called for on FCC Form 340, Section VII, are attached hereto, including an analysis of the proposed facilities in comparison to all other potentially impacted non-commercial stations on co- and adjacent channels (see Exhibit A).

The proposed facility is within the referenced distance to VHF television station WJBF, Channel 6, Augusta, Georgia and WCES DTV channel 6 CP for Wren Georgia. (see Exhibit B for §73.525 compliance). All other exhibits used to certify the information contained in the application are on file in the RTN office of Ted McCall, Engineering Director for RTN and are available for submission to the Commission upon request. All data regarding broadcast facilities was extracted from the CDBS database. Protection contours and separations were calculated with Radio Soft ComStudy 2.2 computer program.
