

LPTV, INC.
TL K31AB - Key West, FL

EXHIBIT 6
Form 346; Section III

The applicant is presently authorized, under File No. BPTTL-20011120AAQ, to relocate the reference station, at the same time slightly increasing power and changing the antenna system. That tower specified in that application having become unavailable, it is now proposed to change the site while decreasing power and antenna height. As shown on the attached Contour Overlap Map, the resulting protected contour (over land areas of the United States) is wholly contained within that previously authorized.

A review of all available records (please see attached Allocations Study) indicates that interference might occur with regard to DTV and LPTV pending applications. In these cases, application of O.E.T. Bulletin No. 69 procedures demonstrate that population loss to any of these would not exceed 0.5%.
