

EXHIBIT 13 – DIRECTIONAL ANTENNA

CERTIFICATION

I, Jeff DePolo, hereby declare and certify that:

- The directional antenna, Propagation Systems model PSIFML-1-DA, designed specifically for translator W291AP, was assembled and installed in accord with the manufacturer's instructions, and that such assembly and installation was performed directly under my supervision.
- The antenna was oriented at the azimuth specified by the manufacturer, and that I was present for the antenna alignment and verified the proper orientation
- I am well versed in FM broadcast directional antenna system regulations contained in Parts 73 and 74 of the Commissions rules
- I have supervised the installation of numerous directional FM antenna installations as part of my normal course of work over the past 14 years
- All of the information contained herein is true and accurate to the best of my knowledge and belief
