November 9, 2007

Clear Channel Radio-Northern Colorado  
Attn: Dave Agnew  
Director of Engineering

Dear Mr. Agnew

This letter is to state that KPAW Directional Antenna installed west of the Raw Hide Power Plant, located in Larimer County, Colorado was found to be oriented to an azimuth of 236° from True North. Due to the complexity and configuration of the antenna no elevation were determined.

Sincerely,

LS Pepek 33642-07

Lawrence S. Pepek  
On the behalf of King Surveyors, Inc.
