Paul Strieby and Matt Tuter, Co-Owners
KKPM-CA Channel 28 Chico, California

Re: Co-Location of K27HC Red Bluff, With KKPM-CA

Dear Chester,

By this letter we agree to the co-location of your channel 27, with our channel 28. As we have discussed, for the purpose of this agreement, co-location for either station will be any site within 2 kilometers of the Saint Partners site at Cohasset, California 39 57 50 latitude, 121 42 38 Longitude.

KKPM-CA will accept up to 10% interference to our coverage from the co-location operation of channel 27 with the following conditions: At any time both stations are operating the video being transmitted by channel 27 must be gen-locked to the video of KKPM-CA. Channel 27's power will be reduced to whatever extent needed to keep interference to the 10% limit. By choosing Co-location, channel 27's owner accepts interference from the proper operation of KKPM-CA as Licensed, or with it's current CP at Cohasset. (KKPM-CA has a pending amendment to move to a site called Sutter Buttes, should this site be built, co-location and interference issues should be eliminated).

Best wishes with your project to improve the only television service to the Spanish speaking population of the North Valley.

Sincerely,

A handwritten signature in black ink, appearing to read "Matt Tuter", written in a cursive style.

Matt Tuter
